WORK EXPERIENCE

Freelance Frontend developer **Jul 2025 - Mar 2026**

- Developed the front-end of a long-term CRM web application for a small business.
- Built responsive UI using Next.js, TypeScript, Tailwind CSS, shadcn/ui and Radix UI.
- Worked extensively with data-heavy interfaces (charts, tables, filters) using Recharts and Radix components.
- Integrated forms and validation with React Hook Form + Yup, and managed state with Redux Toolkit.
- Collaborated with a senior full-stack developer (acting as team lead) via GitHub, code reviews, and agile workflow.

Self-Directed Practical Experience **Dec 2023 - Present**

- News Reactfy – Full-featured news application built with React and TypeScript. Implemented filtering, search, theme switching, and state management with Redux Toolkit.
- GitHub | Live Demo
- Quotes App – Quote management platform built with Next.js and TypeScript. Users can search, add, edit, and delete quotes. Styled with Tailwind CSS and ShadCN UI, integrated with a REST API, tested with Jest.
- GitHub

WORK EXPERIENCE

- Andrii Portfolio – Personal portfolio website showcasing projects and skills. Built with Next.js 14, React 19, Tailwind CSS, and enhanced with Framer Motion animations. Integrated Radix UI, Swiper, and Lucide Icons.
- GitHub | Live Demo
- Get Task Driver – Task management app inspired by Trello. Built with React, TypeScript, Redux, Material UI, and JWT authentication. Features CRUD to-do lists, deadlines, completion status, and Framer Motion animations. Includes unit and snapshot testing with Storybook.
- GitHub
- Other projects: Developed a variety of smaller apps and websites, including an online book library (Redux/Express), a collaborative e-commerce shop (vanilla JS, HTML, CSS), and several responsive landing pages with animations and parallax effects.
- GitHub Repositories
