EXPERIENCE

Evoverse	Jan 2026 - Present
• Developed interactive web applications for the online gaming industry. • Built reusable UI components using React, Next.js, TypeScript, and Tailwind CSS. • Worked on high-performance, responsive interfaces and real-time features. • Integrated REST APIs and managed application state with Redux Toolkit. • Collaborated with designers, backend developers, and QA engineers.	
Freelance — CRM Project (confidential client)	Mar 2025 - Dec 2025
• Developed the front-end of a long-term CRM web application for a small business. • Built responsive UI using Next.js, TypeScript, Tailwind CSS, shadcn/ui and Radix UI.	

EXPERIENCE

- Worked extensively with data-heavy interfaces (charts, tables, filters) using Recharts and Radix components.
- Integrated forms and validation with React Hook Form + Yup, and managed state with Redux Toolkit.
- Collaborated in a small team under senior developer guidance, following agile workflow with GitHub-based code reviews.

Self-Directed Projects

Dec 2023 - Present

- News Reactfy – Full-featured news application built with React and TypeScript. Implemented filtering, search, theme switching, and state management with Redux Toolkit.
